

MARGHERITA

FASHION & STYLING SECTION

MARGHERITA

The best and fastest way to make 3D effects.

Using Margherita for the 3D effects allows you to obtain the highest quality product in a natural way, as well as a far more efficient and controlled process. Thanks to the doors, the airflow system, and the split process, Margherita grants you the highest productivity as well.

Features

TWO STEP
PROCESS

INFLATABLE
DUMMIES

SMART
AIRFLOW

HIGH
PRODUCTIVITY

Dividing the curing process into two steps is the most efficient and fastest way to do it, as it allows you to control the polymerization phase accurately. In this way, the resin starts polymerizing after the water is completely evaporated from the garments.

The Margherita machine is equipped with our specially designed Swing OPS dummies. Swing OPS are inflatable, one-size-fits-all dummies that allow the highest quality of any 3D effect.

The hot airflow of the Margherita is designed to go from top to bottom, thus going through the whole length of the trousers for a uniform drying.

Depending on the weight of the trousers and the amount of resin, the drying time ranges from a minimum of 5/6 minutes to a maximum of 9/10 minutes with an average production of 400 trousers hours.

Technical specs

Dimensions

MARGHERITA HSX 70
/ 50 / 36 / 27
Length: 18000 / 14600
/ 12840 / 9300 mm
Width: 2700mm
Height: 3000 mm
Weight: 9000 / 5500 /
4500 / 3000 kg

Productivity

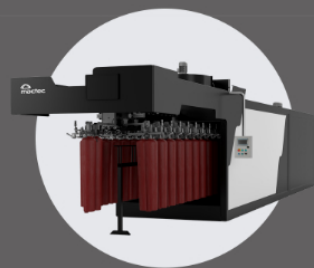

390 / 278 / 184 / 110
pcs/h
250g resin

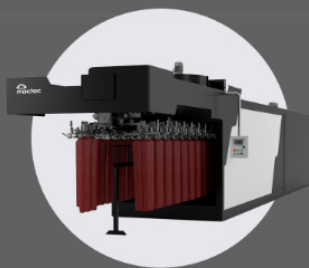

Power Supply

Steam / Gas / Diesel

MARGHERITA

The best and fastest way to make 3D effects.

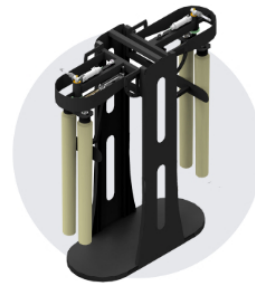

Using Margherita for the 3D effects allows you to obtain the highest quality product in a natural way, as well as a far more efficient and controlled process. Thanks to the doors, the airflow system, and the split process, Margherita grants you the highest productivity as well.

SWING OPS DUMMIES

The only dummy that allows you to obtain a naturally excellent product.

Swing OPS Dummies are specially designed by Mactec to allow the user to obtain the highest quality of 3D effects possible in a natural way.

SC LINE DUMMIES

The best dummies for the highest quality finishings.

SC Line Dummies are the best to obtain excellent finishing effects (like scraping) and are easily adaptable to any laundry and production.

FGM & FGM EXTRA

The best machines for excellent breaking effects.

The FGM machines are designed to obtain excellent breaking effects on garments. The special shaping modules applied to the machine; allow you to obtain breakings in the desired shape, with just one passage of abrasive roll.

TECA

By simply positioning the trouser in the cylinder, the Teca machine allows you to curl any part of the leg.
