

## PFT-2210MJ 自动缝门襟机

Automatic pattern machine  
for jean's J stitch

平均8小时生产2500条

Average production in 8 hours:  
2500 pairs

- 1.全程式式设计，根据不同要求，进行编程。
- 2.牛仔裤、休闲裤、工作裤都可以进行J型门襟线加工。
- 3.配置自动送料装置和收料装置，大大提高了生产效率。
- 4.配置LED灯，自动断线开关。
- 5.大旋梭摆梭结构。
- 6.采用三菱PLC，SMC气动原件，THK导轨，质量更加稳定。
- 7.不需要熟练工人，操作简单易学。

1. The whole program design, according to different requirements, carries on the programming.
2. The jeans, casual pants, overalls type can be J placket line processing.
3. The automatic feeding device and receiving device, greatly improving the production efficiency.
4. With LED light and automatic thread break sensor.
5. Structure of large rotary hook runs.
6. Mitsubishi PLC ,SMC pneumatic valves and cylinder, THK rail, more stable quality.
7. Don't need skilled workers, the operation is simple to learn.

机头 Machine type	PFT-2210MJ
产量 Productivity	平均8小时能加工2500条裤
最大缝纫面积 Max sewing area	220X100mm
线迹长度范围 Stitch length	0.1-12.7mm
应用范围 Application scope	牛仔裤、休闲裤、工作裤等
最大缝纫速度 Max sewing speed	最高2700转/分 Max 2700 rpm
气压 Power and air consumption	1.0Kw, 气压5.5公斤，每循环0.9升 0.9liter/cycle at a pressure of 5.5bar
电源 Power	220V,50/60Hz
电机 Motor	Servomotor 550W
毛重/净重 Gross weight/Net weight	245/190kg
体积Volume(长LX宽WX高H)	1350X1020X1380mm
