

Chemicals Spray
System

Airborne
Filtering System

Eco-sustainable & Ethical technology
for garment treatments

b-Safe

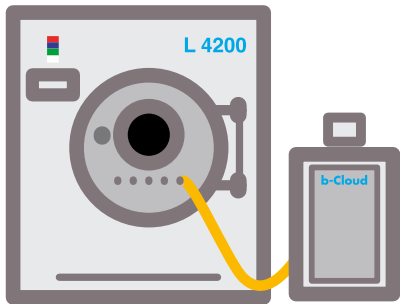

b-Cloud

B-CLOUD

Spray System connected to the machine:

- Chemicals directly sprayed
- Water saving
- Special nozzles

Chemical dissolution system

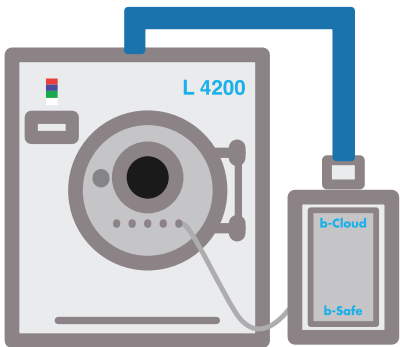

2 sizes:
Sampling and Bulk device

Automatic control

B-SAFE

Airborne Filtering System connected to the machine:

- Interacting with the Spray System
- Works during the main phase of the process
- Capture the smallerst particle of chemicals
- Cloud suction for safe sampling

Eco-sustainable & Ethical technology

Testing results

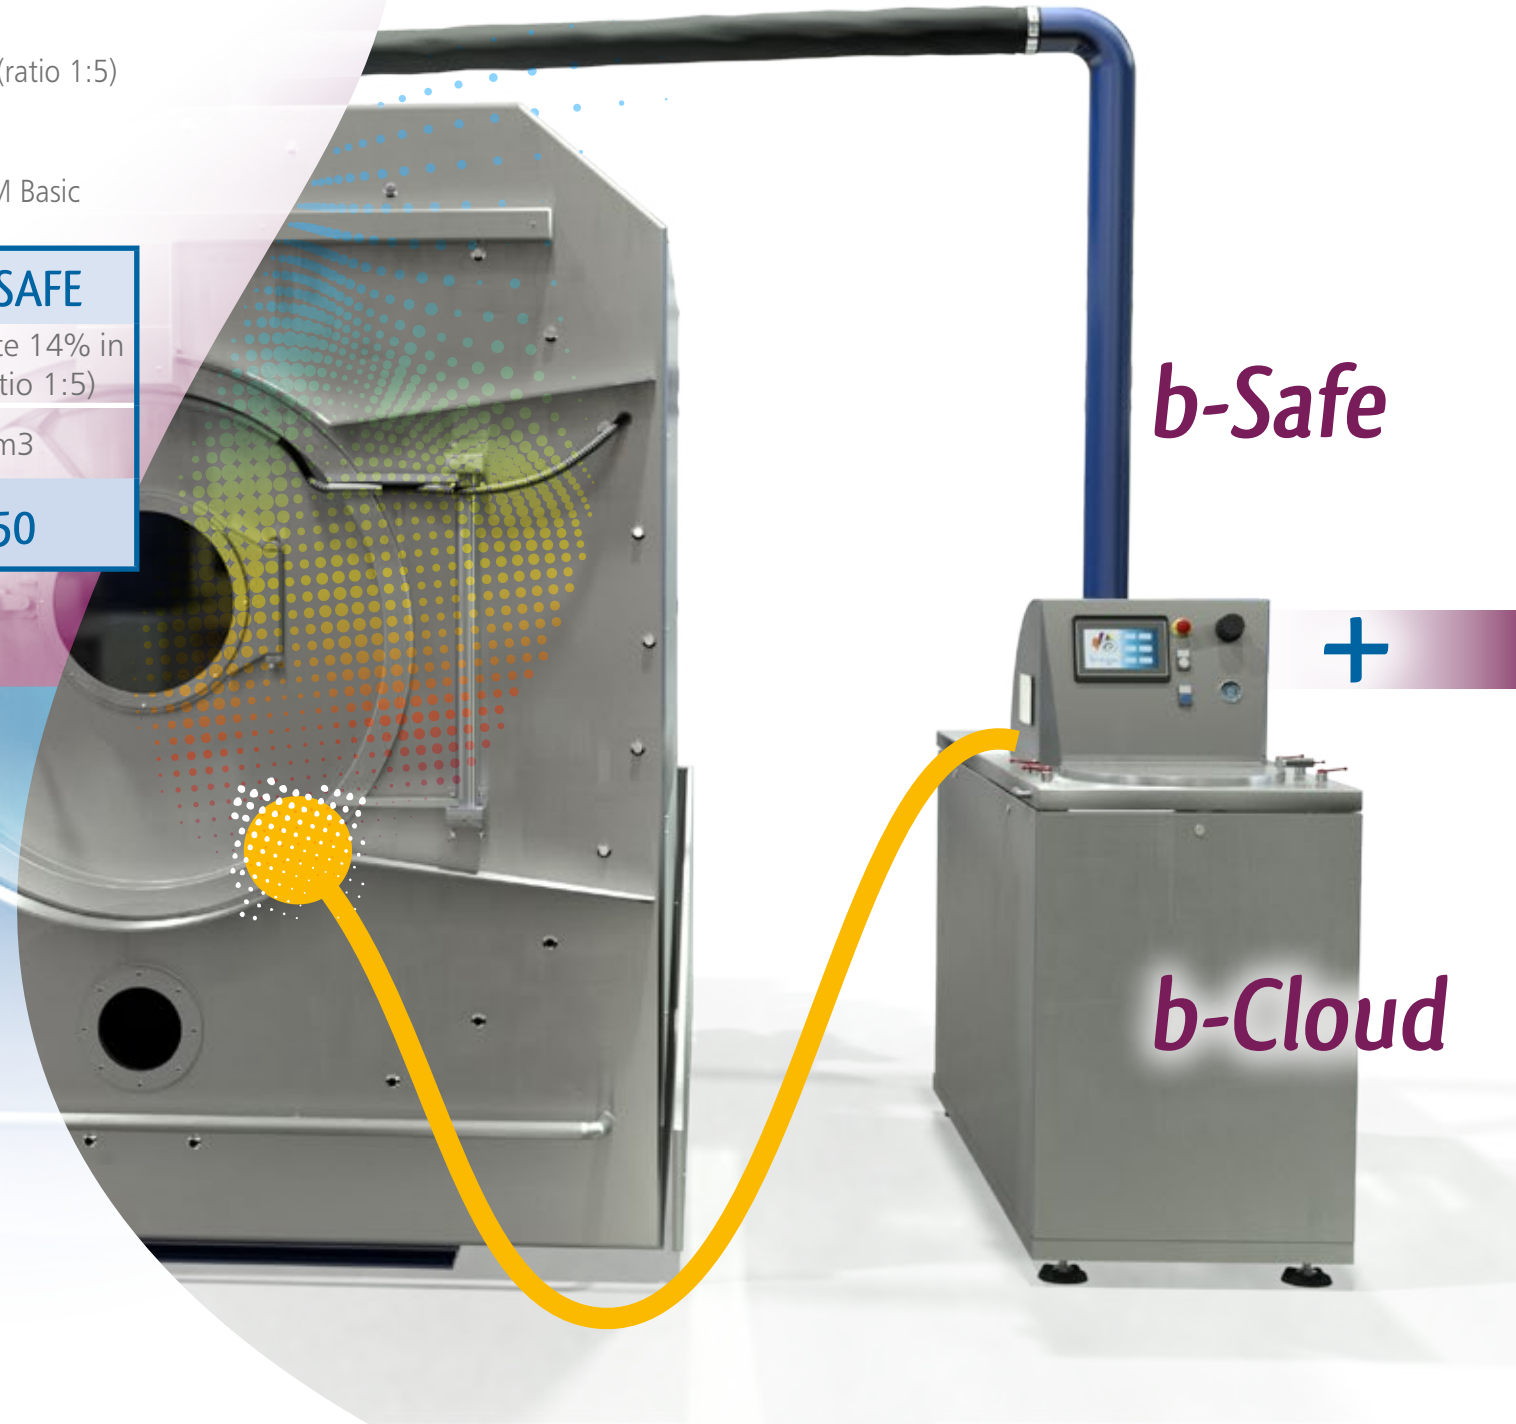

- Product: Hypochlorite 14% in water (ratio 1:5)
- Solution: 50 litres
- Time for spraying 50 litres: 43 min.
- Device for testing: TCR Tecora Bravo M Basic

	B-SAFE	No B-SAFE
