

# PNEUMATIC HEAT TRANSFER PRESS MACHINE

**TY-HTP-GS200S**  
*SEMI-AUTO SLIDING-HEAD DOUBLE-PLATE*

**TY-HTP-GS200FA**  
*FULL-AUTO SLIDING-HEAD DOUBLE-PLATE*

- Pneumatic strong air-cylinder achieving good pressing pressure.
- Precision shaft-bearing for smooth and accurate Press-Head/Heated Plate sliding movement.
- Double Bottom-Plate for easy and fast materials placing achieving higher productivity.
- Advantage of Non-Moving Fixed Bottom-Plate avoiding unwanted material movement for best pressing accuracy.
- Touch-Panel Control, for easy and freely programming, adjustment of parameters such as Tempreture, Loading and Pressing time according to dfferent materials and pressing requirements.
- **FULL-AUTO Model** : Selectable operating modes. Full-Auto Mode: Fully auto Press-Head pneumatic moving and pressing by time programming. Semi-Auto Mode: Press-Head pneumatic moving by simple Push-Button with auto pressing by time programming.
- **SEMI-AUTO Model** : Press-Head manual hand easy sliding move with auto pressing by time programming.
- **OPTIONAL** : Laser position marker.

规格(CM) Model	电压(V) Voltage	功率(KW) Power	时间范围(S) Time Range	温度范围(°C) Temp. Range	工作压力(KG/CM²) Working Pressure	包装尺寸(CM) Packing Size
38*38	220	2.2	0-999	0-399	0-8	88*75*60
40*50	220	3	0-999	0-399	0-8	97*90*85
